Dhanunjay Kadiri

.NET Developer

Hyderabad, TS ◇ +91 8686451984 dhanunjay.kadiri10@gmail.com ◇ LinkedIn

Seeking a challenging role where I can utilize my 3 years of hands-on experience in .NET development, including C#, ASP.NET MVC, ASP.NET Core, ASP.NET Web Forms, Visual Studio, MS SQL Server, JavaScript, and jQuery. Committed to delivering high-quality solutions and contributing effectively to team success.

EDUCATION

Scient Institute Of Engineering and Technology   Hyderabad,TS
bachelor of electronics and communication engineering, JNTUH University   2013 – 2017

SUMMARY

- With 3 years of experience as a Software Engineer in the IT industry, I specialize in developing applications with technologies such as C#, .NET, ASP.NET MVC, ASP.NET CORE, WEB API, HTML, CSS, JavaScript, Microservices, and WCF Services.
- With 1 year as Manual Tester , Strong hands on experience in manual testing, skilled in creating test strategy, test plan, test procedures, test cases, test log, test results and defect reporting.
- I am well versed with MSSQL Server 2019 databases. My project experience has provided knowledge on various types of solutions in industry domains like Logistics and Finance.
- Proficient in leveraging Microsoft technologies like C#.NET, ASP.NET MVC, ASP.NET CORE 8.0, WEB API, MS SQL Server, and MySQL, I have a solid track record of building efficient and scalable solutions.
- Experience working with HTML5, CSS3, JSON, and jQuery.
- Proficient in object-oriented programming skills.
- Experience in writing Procedures and functions and modifying existing Procedures and Packages to meet new Business Requirements.

AREA OF EXPERIENCE

SKILLS

- C#
- Dot Net Core
- ASP .NET MVC
- ASP .NET Web API
- REST API
- JavaScript
- jQuery
- SignalR
- AutoMapper
- HTML/CSS
- Manual Testing

DATABASE

- MICROSOFT SQL SERVER 2019

KEY ACHIEVEMENTS

- **Revenue Growth Through Seamless Integration:** Boosted company revenue through the integration of File Transfer Protocol for data transfer**.**
- **Innovative Chat Feature Design and Implementation:** Led the design and launch of chat features, ensuring compatibility across multiple platforms and devices, increasing user engagement.
- **Database Optimization Using Redis Cache Integration:** Successfully utilized Redis cache integration to reduce database size, significantly lowering storage costs and improving query performance.
- **Accelerated Response Time with Gzip Compression:** Applied Gzip compression, reducing response length and improving page load times, enhancing user experience and efficiency.

PROFESSIONAL EXPERIENCE

Softpal Technologies Private Limited   **Hyderabad, TS**
Software Developer   Dec 2021 – August 2024
ROLE:.NET DEVELOPER
Environment: C#, .Net Core, ASP .NET Web API, SQL Server, Git, jQuery, SignalR, REST API and HTML/CSS.
Duration: 2.8 Years
Domain: Logistics.

- **Key Role in Warehouse Project Success**: Spearheaded the development FTP for automation solutions like inventory tracking, order Processing and data synchronization to improve efficiency and reduce manual work.
- **Optimized Operations with FTP Integrations:** Implemented features that streamline warehouse Process like real Inventory updates.
- **Enhanced Application Performance:** Utilized Redis caching and optimized REST APIs, reducing database load and improving system responsiveness.
- **Developed Real-Time Customer Chat Service:** Created a real-time chat service using SignalR, enabling instant communication between customers and support staff, resulting in a reduction in resolution time and an increase in customer satisfaction.

- **Key Role in Weapon Management Project:** collaborated with stack holders(security personal and inventory managers) and developed the various components of weapon management system such as inventory management, compliance tracking, user management.
- **Custom Features**: Developed advanced analytics for inventory management.
- **Optimization**: Continiously optimized the system based on performance and user feedback.
- **Security Implementation** : Implemented robust security measures to protect sensitive weapon-related data. This includes encryption of data at rest and in transit, secure authentication, and authorization.

ROLES AND RESPONSIBILITIES

- Analyzed and implemented project requirements and functionalities.
- Developed Web APIs based on project specifications.
- Designed and managed SQL Server databases, creating Tables and optimizing performance.
- Developed reusable view components to minimize code redundancy.
- Collaborated with UX designers to develop web APIs, enhancing user experience.
- Collaborated with stack holders to gather and analyze Specific Requirements.

Vaishnavi- Info Tech   **Jadcherla, TS**
Software Tester   Jan 2021 – Dec 2021
ROLE:.Manual Tester
Environment: Test Life Cycle, Test Case Documents
Duration: 1 Years
Domain: Performance and Functional Testing.

- Identified and reported bugs, errors, and glitches to development team.
- Good exposure In STLC(Software Test Life Cycle).
- Reviewed and analyzed system specifications, evaluated product codes according to specifications.
- Collaborated with QA Engineers to develop strategies and test plans.
- Executed manual test cases and analyzed the results.
- Conducted post-release / post-implementation testing to help troubleshoot issues.

Summary of Works Involved :

Project : Dispatch Management System
Environment : Quality Center.
Duration : Jan 2021 to Dec 2021

Description :

Barcode automation tracking system helps in easier sales and dispatch management and record keeping of your cylinder. Provison for BPC,HPC and also private customers. This Software ensures the accountability of manufactured cylinders.

ROLES AND RESPONSIBILITIES

- Reviewing and analysing the requirements received from the client
- Requesting and Validating the test environment

- Deriving the high level scenarios based on the requirements.
- Deriving the test cases based on requirement and high level scenarios and executing the test cases.
- Reporting Defects.
